

Vibrant, Versatile Lighting Solutions

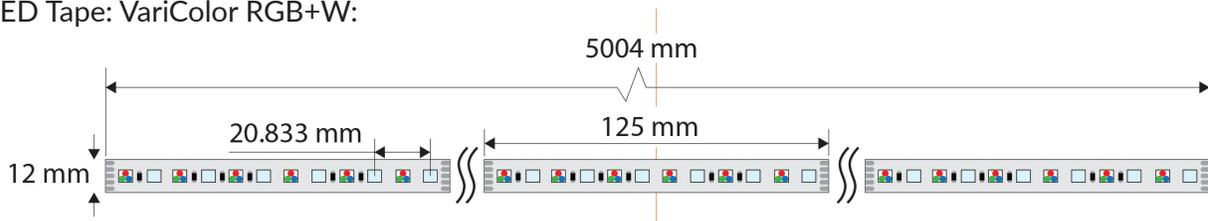

RoscoLED Tape VariColor is designed for the most demanding dramatic lighting applications. Each 5m reel of tape delivers an amazing volume of high-quality, full color-mixing illumination that can easily be incorporated into any project. All RoscoLED Tapes are pre-configured with a multi-pin male connector for easy plug-and-play installation using our RoscoLED Control Box - no soldering required. Each reel ships with a mating female connector with bare-end pigtails for connection to optional, stand-alone power and dimming controls. All RoscoLED Tape is field cut-able, enabling completely customized installation.

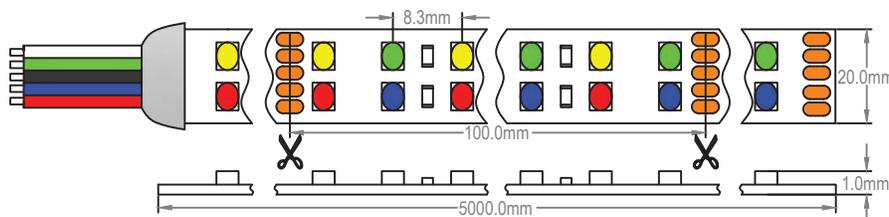

KEY FEATURES

- High output intensity: up to 1,440 lumens per meter
- Range of products available to create virtually any color desired : RGB+CW (6000K), RGB+WW (3000K), RGBA
- State-of-the-art emitters that produce bold colors, blended hues and subtle tints for any installation
- Pre-configured multi-pin connector for plug-and-play connectivity when used with a RoscoLED Control Box
