

Roscoflamex fire retardants have been formulated to meet the extreme needs of the entertainment industry and are designed to treat the wide range of diverse materials used in scenery, props, and costume construction. Roscoflamex products meet fire retardant standards as established by NFPA, ASTM, and have been approved by the CA Fire Marshall and New York City Fire Dept.

Roscoflamex MC effectively treats virtually any substrate, including raw wood, natural and synthetic fabrics, paper, and many more materials. Premixed for easy use straight out of the bottle, Roscoflamex MC is perfect for scenic elements, set pieces, costumes, and props.
