

RoscoGrip™ Strips

Whether it's headlights, emergency vehicle lights, or LED signage – Rosco Grip Strips are the easiest way to reduce the light output of non-dimmable light sources on set. Featuring a medium-tack, repositionable adhesive, RoscoGrip Strips quickly adhere to virtually any flat surface – and then remove easily, once the project is done.

KEY FEATURES

- Easy application – just stick it to any clean and flat surface, then trim it to size!
- Repositionable, medium tack adhesive.

SPECIFICATIONS

| | |
|---------------------|--|
| Roll Dimensions: | 6" x 25' (15.42cm x 7.62M) on a 3" (7.62cm) core |
| Weight: | 13 oz. (365 g) |
